

CONNECTING / PIPE CONNECTORS / OVERVIEW

Connection Principle 2N

For the 2N pipe connector, the pipe is placed against the inner edge of the connector and a sealing ring seals off the connection. A cutting ring wedges into the flexible tube or pipe as far as the hexagon nut is screwed onto the connector body, thereby fixing the connection in place. This creates a friction-locked and tight pipe connection that can be released at any time, that eliminates dead volume in the design concept and also has no effect on the flow.

Connection Principle 2N

PRODUCT

36 PRODUCTS WHERE FOUND

2N100B

Plug connector with pipe connection Series 2N

2N100FG

Straight connector for pipe (Series 2N) with female G-thread

2N100FM

Straight connector with connection for pipe (Series 2N) and female M-thread

2N100FN

Straight connector with connection for pipe (Series 2N) and female NPT-thread

2N100FU

Straight connector with connection for pipe (Series 2N) and female UNF-thread

2N100MG

Straight connector with connection for pipe (Series 2N) and male G-thread

**2N100MM**

Straight connector with connection for pipe (Series 2N) and male M-thread

**2N100MN**

Straight connector with connection for pipe (Series 2N) and male NPT-thread

**2N100MU**

Straight connector with connection for pipe (Series 2N) and male UNF-thread

**2N100P**

Straight union with connection for pipe (Series 2N)

**2N101FG**

Straight bulkhead connector with connection for pipe (Series 2N) and female G-thread

**2N101FN**

Straight bulkhead connector with connection for pipe (Series 2N) and female NPT-thread

**2N101MG**

Straight bulkhead connector with connection for pipe (Series 2N) and male G-thread

**2N101MN**

Straight bulkhead connector with connection for pipe (Series 2N) and male NPT-thread

**2N101P**

Straight bulkhead union with connections for pipe (Series 2N)

**2N110FG**

Straight pressure gauge connector with connection for pipe (Series 2N) and male G-thread

**2N200FG**

Elbow connector with connection for pipe (Series 2N) and female G-thread

**2N200FM**

Elbow connector with connection for pipe (Series 2N) and female M-thread

**2N200FN**

Elbow connector with connection for pipe (Series 2N) and female NPT-thread

**2N200MG**

Elbow connector with connection for pipe (Series 2N) and male G-thread

**2N200MM**

Elbow connector with connection for pipe (Series 2N) and male M-thread

**2N200MN**

Elbow connector with connection for pipe (Series 2N) and male NPT-thread

**2N200MU**

Elbow connector with connection for pipe (Series 2N) and male UNF-thread

**2N200P**

Elbow union with connections for pipe (Series 2N)

**2N201P**

Elbow bulkhead union with connections for pipe (Series 2N)

**2N300FG**

T-connector with connections for pipe (Series 2N) and female G-thread

**2N300FN**

T-connector with connections for pipe (Series 2N) and female NPT-thread

**2N300MG**

T-connector with connections for pipe (Series 2N) and male G-thread

**2N300MN**

T-connector with connections for pipe (Series 2N) and male NPT-thread

**2N300P**

T-union with connections for pipe (Series 2N)

2N310MG

T-connector with connections for pipe (Series 2N) and male G-thread, asymme...

2N310MN

T-connector with connections for pipe (Series 2N) and male NPT-thread, asym...

2N400P

Cross union with connections for pipe (Series 2N)

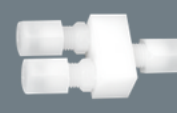

2N500MG

Fork connector with connections for pipe (Series 2N) and male G-thread

2N500MN

Fork connector with connections for pipe (Series 2N) and male NPT-thread

2N500P

Fork union with connections for pipe (Series 2N)
